 Nairobi

SUMMARY

Driven and results-oriented web developer with expertise in frontend development and a passion for crafting intuitive and visually appealing web applications. Proficient in modern web technologies, highly adaptable to emerging trends, and dedicated to delivering innovative solutions. Seeking an opportunity to contribute to a dynamic team while continuing to grow as a developer and making meaningful impacts through creative problem-solving.

EDUCATION

Software Engineering

Power Learn Project

2024

Diploma In Web Development

NairoBits Trust

2023 - 2024

SKILLS

Technical Skills									
React Js	Javascript	Tailwind CSS	Mongodb	SASS	Node js	Bootstrap	HTML5	CSS	Git
Github	Tailwind	Deployment	Graphic Design	Photoshop	Python				
Soft skills:									
Problem-solving	Teamwork	Time management	Adaptability	Attention to detail					

KEY ACHIEVEMENTS

- ✓

Successfully completed frontend development courses with distinction.
 - Mastered HTML, CSS, JavaScript, and modern frameworks, focusing on responsive, user-friendly design.
 - Honed skills that enable efficient, high-quality web development, demonstrating a strong commitment to excellence.
- ✓

Awarded for outstanding performance in my web development course
 - Recognized for key contributions in design and development, enhancing project quality and collaboration
 - Demonstrated leadership and teamwork, helping deliver a successful and impactful final product.
- ✓

Developed a strong portfolio showcasing web development skills.
 - Created and showcased diverse projects, highlighting expertise in responsive design, modern UI/UX, and efficient coding practices.
 - Demonstrated the ability to build real-world applications, enhancing credibility and career prospects.
- ✓

Participated in hackathons and coding challenges
 - Engaged in competitive coding events, solving complex problems under time constraints
 - Enhanced problem-solving skills and teamwork while gaining exposure to new technologies and approaches.

PROJECTS

Blood-Link

📅 2024 📍 Nairobi

Technologies: *React, Tailwind CSS, MongoDB*

Developed a platform to promote blood donation and manage donor interactions.

- **Improved User Engagement:** The website's easy-to-use features encouraged more users to schedule blood donation appointments.
 - **Efficient Management:** Blood donation centers could manage and retrieve donor information seamlessly, saving time and improving administrative workflows
 - **Accessibility and Reach:** The responsive design enabled a broader audience to access the platform on various devices, increasing overall engagement.
-

Kazi Pap

📅 2024 📍 Nairobi

Kazi Pap – Job Application App

Technologies: *React, Tailwind CSS, MongoDB*

Developed a web application to simplify the job search and application process for job seekers.

- Implemented **job search functionality** with filters for titles, companies, and region-specific content.
 - Created a **user-friendly interface** for easy navigation and a streamlined job application experience.
 - Integrated a **county selection dropdown** to deliver personalized job listings based on the user's location.
 - Enabled **direct application submissions**, reducing barriers for job seekers to connect with potential employers.
-

Elimu Tuts – Online Educational Platform

📅 2024 📍 Nairobi

Technologies: *HTML, CSS, JavaScript, Bootstrap, MongoDB*

Developed an educational platform offering **free courses and learning resources** for Kenyan students.

- Provided lessons in key subjects, including **Mathematics, English, Kiswahili, Science**, and **Social Studies**, aligned with the Kenyan school curriculum.
- Designed **interactive lessons** to engage students and enhance learning outcomes.
- Focused on **tailored tutoring** to address individual student needs, ensuring personalized and effective education. Aimed to make education **affordable and accessible**, reducing barriers for students across Kenya.
